Planned as the last game in the R-Type series, Final is an investigation into a destroyed space colony and includes 101 different ships from the entire R-type timeline. The R-Type is a side scrolling shoot-em-up arcade created by Irem in 1987. The graphic design was inspired by H. Giger's artwork for foreign films. The game was installed on several home computers, including ZX Spectrum and Commodore 64 in 1988, Atari ST and Amiga in 1989 Later you can thank me. Almost every PS2 game ever with live download, found these lists hidden deep at archive.orgProof: Just realized you need to quickly register a free account on archive.org before you can download them otherwise it says 'item not available'. Before posting, I didn't realize that an account was needed before posting because I was automatically logged in. UPDATE: Just got around to finally burning some of these games to DVD-R and I can confirm they work flawlessly on my hard-modded (PAL) PS2. Just remember to make sure that if you burn this game, always burn them at 2x speed, otherwise they will not start properly on the console.97% Upvoted)ISOs » Sony Playstation 2 » R-Type Final (USA)Genre: Shoot 'Em UpRating: ESRB: EHow to Play This Game ?
