Diablo 3 wizard builds tal rasha

Tal Rasha's Meteor is one of the most influential Wizard builds in Patch 2.6.1. It may be a little behind the Firebird's Meteor build in terms of high GR pushing, but it provides an excellent speed farming variation. If you want to have a smooth transition between GRs and farming Bounties or Keystones, this is a build for you. To check the full list of our Best Diablo 3 builds visit: [The Best Diablo 3 builds by Odealo](#) Table of contents General information Recommended items Recommended skills General information The entire build is based on the Tal Rasha's Elements set: Damaging enemies with Arcane, Cold, Fire or Lightning will cause a Meteor of the same damage type to fall from the sky. There is an 8-second cooldown for each damage type (2/6) Arcane, Cold, Fire and Lightning attacks each increase all resistances by 25% for 8 seconds (4/6) Attacks increase total damage done by 750% for 8 seconds. Arcane, Cold, Fire, and Lightning attacks each add one stack but do not refresh the duration of each other. At four stacks, each different elemental attack will also prolong the duration by 2 seconds, up to 8 seconds (6/6) While Tal Rasha's gameplay mechanics may seem complex at first, when you get at it, they are nowhere near being hard to master. When using Tal's set you need to use four different elemental attacks to earn a total of 3000% increased damage (750% for each type of elemental attacks). While at four stacks you need to use different elemental attacks to increase the duration of this buff by 2 seconds. Tal Rasha's Meteor is about teleporting into enemies with the Calamity (Arcane damage type rune) to grant the first stack, using Frozen Mist whenever off cooldown (Cold attack), and channeling Arcane Torrent for both Lightning and Fire-type attacks. In this build, on top of the Tal set, you are using Deathwish sword, Etched Sigil, The Grand Vizier and the Nilfur's Boast which amplify Meteors damage even further. The damage output is so high that you may as well replace the sword with Aether Walker for fantastic mobility. This is the speed farming variation, which should still allow farming Greater Rifts up to level 85 much faster. Odealo is a trading platform for players of MMO games. It is an open marketplace for Item Farming, Power Leveling and Boosting services in Diablo 3. Recommended items Equipment Head - Tal Rasha's Guise of Wisdom Stat priorities: 1) Increased Meteor Damage 2) Critical Strike Chance 3) Socket 4) Intelligence 5) Vitality 6) Secondary Res. Socket: Chest - Tal Rasha's Relentless Pursuit Stat priorities: 1) Attack Speed 2) Intelligence 3) Vitality 4) Armor 5) Melee/Ranged damage reduction Sockets: Pants - Tal Rasha's Stride Stat priorities: 1) Intelligence 2) Vitality 3) Armor Sockets: Tal Rasha's Star Pact is one of the strongest Wizard builds in Patch 2.6.4. It's on par with other Wizard's build like Firebird Star Pact or Delsere's Magnum Opus Frozen Orb in terms of high GR pushing, but it provides an excellent speed farming variation. If you want to have a smooth transition between GRs and farming Bounties or Keystones, this is a build for you. To check the full list of our Best Diablo 3 builds visit: [The Best Diablo 3 builds by Odealo](#) Table of contents General information Recommended items Recommended skills General information The entire build is based on the Tal Rasha's Elements set: Damaging enemies with Arcane, Cold, Fire or Lightning will cause a Meteor of the same damage type to fall from the sky. There is an 8-second cooldown for each damage type (2/6) Arcane, Cold, Fire and Lightning attacks each increase all resistances by 25% for 8 seconds (4/6) Attacks increase total damage done by 2000% for 8 seconds. Arcane, Cold, Fire, and Lightning attacks each add one stack but do not refresh the duration of each other. At four stacks, each different elemental attack will also prolong the duration by 2 seconds, up to 8 seconds (6/6) Thanks to Season 16 global event, where everyone has Ring of Royal Grandeur buff we are allowed to skip Tal Rasha's Amulet and wear Endless Walk set which provides: While moving, all damage taken is reduced by up to 50% (2 pieces) While standing still, all damage dealt is increased by up to 100% (2 pieces) While Tal Rasha's gameplay mechanics may seem complex at first, when you get at it, they are nowhere near being hard to master. When using Tal's set you need to use four different elemental attacks to earn a total of 8000% increased damage (2000% for each type of elemental attacks). While at four stacks you need to use different elemental attacks to increase the duration of this buff by 2 seconds. Tal Rasha's Meteor is about Teleporting between enemies while using Magic Missile to trigger Fire damage, Ray of Frost as Cold damage source, Arcane Torrent as Lightning damage boost and spend all remaining Arcane Power for huge Damage with Star Pact (Meteor's Arcane Rune) during Arcane Power rotation provided by Convention of Elements. In this build, on top of the Tal set, you are using Deathwish, Nilfur's Boast and Etched Sigil for increased Damage of Meteor while channeling Ray of Frost. In the Cube, we are using The Grand Vizier which amplify Meteors damage even further. Main source of Damage is Star Pact, which uses all remaining Arcane Power, so for fast recovery, we need The Shame of Delsere. Additional Defensive boost provides both Halo of Arlyse and Ancient Parthan Defenders. Odealo is a trading platform for players of MMO games. It is an open marketplace for Item Farming, Power Leveling and Boosting services in Diablo 3. Recommended items Equipment Head - Tal Rasha's Guise of Wisdom Stat priorities: 1) Increased Meteor Damage 2) Critical Strike Chance 3) Socket 4) Intelligence 5) Vitality 6) Secondary Res. Socket: Chest - Tal Rasha's Relentless Pursuit Stat priorities: 1) Attack Speed 2) Intelligence 3) Vitality 4) Armor 5) Melee/Ranged damage reduction Sockets: Pants - Tal Rasha's Stride Stat priorities: 1) Intelligence 2) Vitality 3) Armor Sockets: 1. Tal Rasha Channeling Meteor The build is also adaptable to the Tal Rasha's Elements set with minor modifications, resulting in a tankier but slightly weaker variant. Nevertheless, this take on the spec is more than capable and fully warrants a mention as a progression build. 2. Adapting Skills (diablo3.com link) The shift from a Firebirds playstyle (need to use three different Fire skills) to Tal Rasha (need to use one spell of each element) mandates the following changes to your skill selection: Arcane Torrent will be kept in the build, but the Flame Ward rune will have to be swapped to Static Discharge to cover for the Lightning proc of the Tal Rasha set; Familiar Sparkflint from the Firebird setup will be completely removed from the setup in favor of Frost Nova Frozen Mist, which covers for the Cold proc of the Tal Rasha set; Teleport remains in the setup, but the Safe Passage rune will give way to Calamity for the Arcane proc of the Tal Rasha set. 3. Adapting Gear You will swap all Firebird pieces away for Tal Rasha ones, occupying the helm, glove, chest, belt, pants and amulet slots with Tal pieces. Due to the distribution of set pieces in the Tal Rasha set, you will lose The Witching Hour for Tal Rasha's Brace and the Endless Walk jewelry set for Tal Rasha's Allegiance. What you will gain however, is more than appetizing: you get to wear Nilfur's Boast (freeing up the Cube slot for the extra protection of Aquila Cuirass) and gain an extra synergistic item in the face of Mantle of Channeling. You will complete your jewelry with a offense-and-defense split of Convention of Elements and Unity. To help you with farming the gear you need for your builds, we have two very useful guides that you can access by clicking the links below: a Salvage Guide to help you quickly check whether or not you can safely salvage a piece of gear and a Legendary Farming Guide to help you efficiently farm legendaries and set items. Legendary Item Salvage Guide Guide to Farming Legendaries and Set Items 4. Adapting Kana's Cube As previously mentioned, due to the shifting of item slots you will be able to wear Nilfur's Boast and cube the massive protection of Aquila Cuirass in the Armor slot. The jewelry Cube slot is best taken by the massive damage reduction bonus of Halo of Karini, with a trivial requirement of using Storm Armor in the build. The Kana's Cube can be used for much more than simply extracting Legendary powers from items. Please refer to our Kana's Cube guide for more information. Kana's Cube guide 5. Changelog 01 Jul. 2020: No changes required for Season 21. 12 Mar. 2020: No changes necessary for Season 20. 22 Nov. 2019: Reviewed for Season 19. 23 Aug. 2019: Reviewed and approved for Season 18. 17 May 2019: Guide was reviewed and approved for Season 17. 18 Jan. 2019: Guide was revised with additional recommendations for Season 16.
